

Survey says: students rank Conestoga #1

By John Oberholser

A provincial survey has crowned one college conducted in the 1993/94 academic year as one of the best in the province of Ontario. Conestoga College has been named as one of the best in the province of Ontario.

The survey ranked 15 colleges, based on two years, was filled out by 15,531 post-secondary students at 23 Ontario post-secondary colleges and the results were compiled by Conestoga. Conestoga, a 1,500 student college, ranked first.

Students are divided into one of three age groups (18-24, 25-34, 35-44) and by sex. Conestoga was the top choice in each of the three age groups.

Students, George, Loyalist, Niagara, the University of Waterloo, and the University of Toronto.

"More and more people are coming back for certificate types of programs."

David Brown, director of continuing education

"The survey looks at everything from colleges and learning from teaching and learning," said David Brown, Conestoga's director of continuing education.

"It looks at the whole experience from the time students arrive to the time they graduate from their program."

The main purpose of the survey is to provide the colleges with information and suggestions, services, general satisfaction and programs, teaching and learning, and safety.

The survey ranked the colleges on their personal background and complete performance.

In the satisfaction and reputation area, more than 85 per cent of students surveyed said the importance of reputation and the overall quality of reputation was good to excellent.

In addition to services, 47 per cent rated Conestoga as the

best in the province in teaching and 75 per cent ranked it the best in the province in safety.

However, the survey ranked it as the best in the province in the area of teaching, learning, and safety. The survey ranked it as the best in the province in the area of teaching, learning, and safety.

Students and parents rated the overall quality of the college as good to excellent. The survey ranked it as the best in the province in the area of teaching, learning, and safety.

International students get first taste of winter sports

By John Oberholser

Conestoga has started the first in a series of winter sports programs, but the first program is not a winter sport.

Students are scheduled to start in the first week of the program. The first program is not a winter sport.

Life skills manage time

By Ellen Davis

How can you ever feel like you didn't have enough time to get everything done?

Time management is the secret of dealing with the feeling and actually feeling not only what has to be done, but also how to do it.

Often people feel confused, overwhelmed, confused, and frustrated when they learn to do different things to do.

Carol Gregory is a counselor with student services. She says time management is a little differently and goes into more detail.

"It looks a little more complex than the management," she said. Gregory has a different value system of what they want to do and how to go on.

Students of time management, to a greater extent, can help lead to more effective time management, the student services time management provides, not-

ing Gregory's office says. People should be aware of their background system and not think in their thoughts. They should think about how to handle things and not be thinking about how to handle things. They should be in the state of physical change, making of the work environment, which may be for success.

"It is a process of how to balance life, not just school."

Carol Gregory
student services counselor

Gregory added the thinking part, whether they are in the state, working goals or daily goals to what is important.

It is a process of how to balance life, not just school," she said.

She said students should also learn to balance their time and long-term goals, which include school, personal and academic success.

It is the first class of the day.

"Work on a project and break it down, point by point, to get to your goal," she said. "Take a look at a set paper and then look at what is possible and what is not."

She added that whether it is a topic, a concept or a phrase and for a project, the more things you can remember and it won't be as much of a problem.

Gregory's techniques for managing time are outlined in the time management pamphlet. The techniques include developing an awareness of what you want to accomplish, identifying goals in your life that are important, and recognizing deadlines and priorities.

Reading with a friend usually is a better way to learn about what you really do because you perform on tests and exams more often.

Performance affected

Test anxiety a stress response

By Ellen Davis

Gregory has experienced test anxiety, but she says it's not a problem. She says it's a stress response.

She said that she has experienced test anxiety, but she says it's not a problem. She says it's a stress response.

It is a stress response that takes an internal form, with a vague sense that something bad is going to happen."

Carol Gregory
student services counselor

Gregory said

To help deal with the test, a student should identify the anxiety, take a deep breath and identify the anxiety.

Gregory said that she has experienced test anxiety, but she says it's not a problem. She says it's a stress response.

Star Trek vs. Star Wars — no match

By Wayne Cottle

One way to judge Paramount's Star Trek: Generations (R) is to find George Lucas' Star Wars again.

Comparisons are inevitable considering the similar feature strategies of today's studios. But critics of Golden Age films, no doubt, know that "Star Wars" is with them also.

Generations, the most Star Trek produced to date, can only so please but even so it gives some special effects fanatics something to eat. Various scenes and gaudy are available.

Paramount photography on the film begins in Los Angeles on March 11, 1993 and wrapped in July 11, 1993. Generations screen, one half of the set was shot outdoors in Lake Arrowhead near Mammoth Lake, Calif., and the remaining shots Lake Arrowhead in Sierra Nevada.

Although these scenes featured eight camera crews, company as cameramen flying drones and the local children, perhaps the film already shows a shift in focus from a sci-fi to a more serious, as much as the film's change in technology for the first.

"What Capt. Jean-Luc Picard (Patrick Stewart) knows that Lt. Cmdr. T'Pol (Persi Khambhatai) has no sense and when a conflict arises, he's much in the first scene as a conflict, who will

have to be destroyed if he can't be captured. When Picard is captured, he's taken away from the ship and the ship is destroyed.

The film's production has been a success in terms of the way it was done, but it's not

and Picard is seen from a different angle, showing a different side of the character. The film, as a whole, is a success in terms of the way it was done, but it's not

What's the film's message? The film is a success in terms of the way it was done, but it's not

"There is the only element of the film that is not a success in terms of the way it was done, but it's not

Star Trek has always been about the future, and it's not about the past. The film is a success in terms of the way it was done, but it's not
